PHOTO RETOUCHING & EDITING

# APPLICATIONS

Photo Editing and Re-touching services are required within the industry in the following spheres on the daily.

01

PRODUCT PHOTOGRAPHY

02

WEDDINGS

03

REAL ESTATE

Lr

# Product Photography

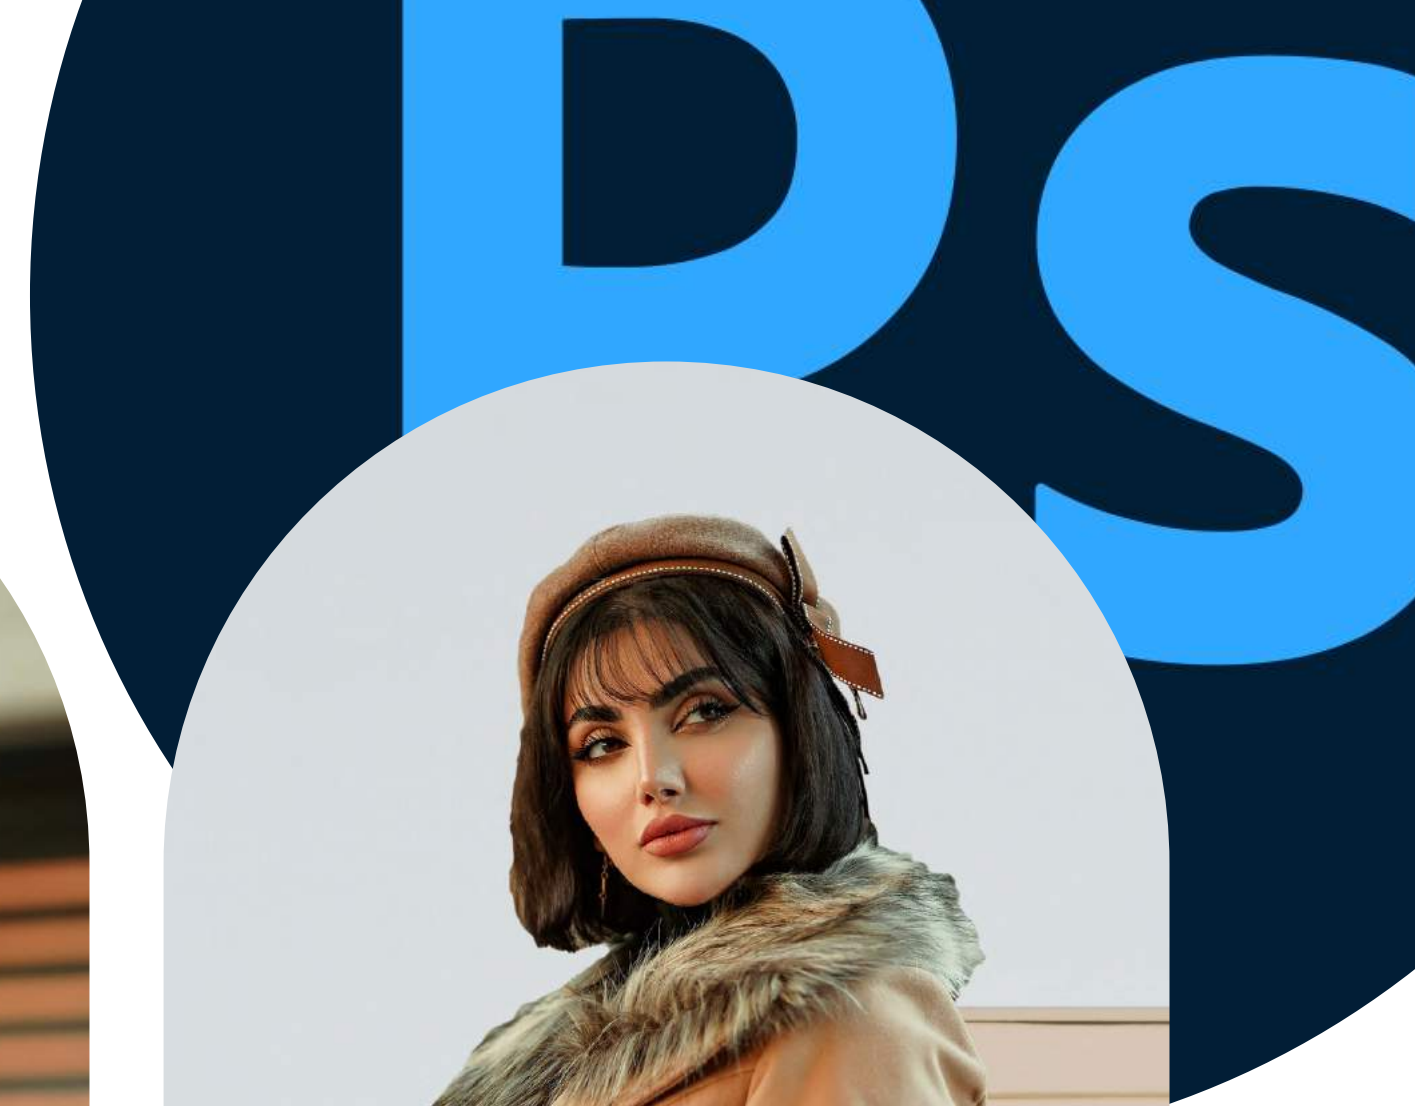

We understand the importance of captivating product images in today's competitive market. Transformation of product photos into visually stunning and professionally refined images that will captivate the audience and boost sales is done. Photoshop is used to enhance the appearance of product images, ensuring they stand out and make a lasting impression.

DS

# Background Removal

Removing the background from product images is essential to create a clean and consistent look. This process involves isolating the product from its original background and placing it on a neutral or customized backdrop. It ensures that the product becomes the sole focus of attention.

# Wedding Photography

We recognize the significance of wedding images - the desire to have them beautifully preserved for a lifetime. Wedding image editing services include colour correction, culling, and straightening.

# PROCESS

01

## IMAGE COLOR CORRECTION

Meticulous correction of the colours of the wedding images, ensuring that they are vibrant, true to life, and visually appealing. We focus on adjusting colour balance, saturation, and brightness levels to achieve a consistent and pleasing look across all the images.

02

## IMAGE CULLING

Sorting through numerous wedding images can be a time-consuming task. Our culling service streamlines the process by selecting the best shots from the collection. We carefully assess each image, remove duplicates, and blurry or unflattering shots, identifying the ones that best capture the essence of the special day. This saves the client time and effort.

03

## IMAGE STRAIGHTENING

Sometimes, slight tilts or crooked angles can detract from the overall appeal of your wedding images. Our straightening service ensures that your photos appear perfectly aligned and well-composed. We will adjust the horizons, straighten verticals, and correct any unintentional tilting, resulting in visually pleasing and balanced compositions.

# Photo Retouching

Displaying flawless skin in photographs is crucial especially when it comes to portraits and beauty shots. Our professional photo skin retouching services are designed to enhance the natural beauty of subjects while maintaining a natural and realistic appearance.

# PROCESS

01

## BLEMISH REMOVAL

We carefully remove blemishes, acne, spots, and other imperfections from the skin while maintaining the texture and preserving the individual's unique features. This process ensures a clean and smooth complexion, giving the subjects a fresh and flawless look.

02

## SKIN TONE & TEXTURE ENHANCEMENT

We adjust skin tones to create a more even and balanced appearance. Our retouchers pay attention to maintaining the natural skin texture, avoiding an over-processed or artificial look. We enhance the clarity and smoothness of the skin while retaining its authenticity.

03

## WRINKLE & FINE LINE REDUCTION

Through subtle retouching techniques, we reduce the appearance of wrinkles and fine lines, ensuring a youthful and vibrant look without compromising the overall integrity of the portrait. We strive for a natural and age-appropriate enhancement.

# PROCESS

04

## SKIN SMOOTHING

We delicately smooth the skin's surface while preserving important details and avoiding a plastic-like appearance. Our skilled retouchers ensure that the skin retains its natural texture and looks realistic, resulting in a polished and refined image.

05

## EYE & TEETH ENHANCEMENT

We pay attention to the eyes and teeth, brightening and enhancing them as needed. This includes reducing redness, whitening teeth, and enhancing the overall sparkle and vibrancy, bringing out the subject's natural beauty and charisma.

06

## OVERALL IMAGE ADJUSTMENT

In addition to skin retouching, we make necessary adjustments to exposure, colour balance, and contrast to optimize the overall image and create a visually appealing result. Our goal is to present the subjects in the best light possible while maintaining a natural and authentic appearance.

# Real Estate Photography

The Real Estate Photo Retouching Services are designed to enhance the visual appeal and marketability of property listings. The emphasis is on transforming ordinary real estate photos into captivating images that leave a lasting impression on potential buyers and renters.

# PROCESS

01

## SKY REPLACEMENT

We understand that weather conditions may not always be ideal for capturing stunning outdoor shots. Our sky replacement service allows us to replace dull or overcast skies with vibrant, clear, and visually appealing skies, instantly enhancing the overall aesthetics of the property images.

02

## COLOUR CORRECTION & ENHANCEMENT

Ensuring that the colours in the real estate photos are accurate, vivid, and visually appealing. We carefully adjust colour balance, saturation, and brightness levels to create a consistent and inviting look throughout the property images.

03

## PERSPECTIVE CORRECTION

To ensure that the property images look professional and visually pleasing, we offer perspective correction services. We correct any distortions or irregularities caused by camera angles or wide-angle lenses, resulting in visually balanced and proportionate images that accurately represent the property's architectural features.

# PROCESS

04

## OBJECT REMOVAL

Sometimes, there may be unwanted objects or distractions in the property images that can distract from the overall appeal. Our photo retouching services include the removal of such objects, creating clean and clutter-free images that allow potential buyers to focus on the property's key features.

05

## VIRTUAL STAGING

Virtual staging is an effective way to showcase the potential of an empty or partially furnished property. Our skilled designers can digitally add furniture, decor, and other elements to create realistic and inviting visualizations. Virtual staging helps potential buyers envision the possibilities and enhances the marketability of the property.

06

## EXTERIOR ENHANCEMENTS

We can enhance the exterior of the property images by adjusting lighting conditions, adding warmth, and increasing curb appeal. We remove unwanted distractions, clean up landscaping, and make other enhancements to ensure that the property stands out in a competitive real estate market.
